Pro tip: Want to improve your credit score?  
Pay your bills before the due date. To reduce  
late payment charges, pay more than the  
minimum due.

Paying only the minimum monthly due would  
stretch repayment over many months/years.  
And each time, your interest payments get  
compounded & pile on your outstanding  
balance. See a sample calculation for interest  
applied when only minimum amount due is  
paid, in the MITC. [MITC](#)

## TOTAL AMOUNT DUE

**₹32,046.40**

## MINIMUM AMOUNT DUE

**₹1,602.32**

Minimum amount due is 5% of purchases + 100% of active EMIs and all card  
related charges including any over limit spend. Interest will be applied if your total  
amount due is not paid.
